Have you used Zelle® yet?

Zelle is a convenient way to send money right from your mobile banking app or online banking account.

You can do everything from splitting the cost of bills to paying back friends to sending money to your landscaper. Access Zelle® easily through your online or mobile banking account.

A couple things to remember when sending money with Zelle:

Know

Only use Zelle® to send money to friends, family and other people you trust.

Verify

Make sure your recipient's name, U.S. mobile phone number and email address are correct before sending money.

Be aware

If a payment situation feels off, it probably is. Trust your gut and investigate.

Refinancing is the process of paying off an existing loan with a new loan, and using the same property as collateral. Usually, the interest rate on the new mortgage will be less than the old, which saves you money!
