Space City Plans Expansion of Headquarters

Space City Credit Union is excited to announce the construction of our new building. The building will be located next to our main facility at 3101 Harrisburg Blvd, Houston, TX, and it will be a state-of-the-art facility that will house our growing team.

The building will feature several amenities that will make it a great place to work, including a rooftop terrace connected to a large training/community room which can double as an event space. The building will also include a retail coffee/sandwich shop with covered outdoor seating.

“Due to our robust growth over the past few years, we are completely out of space.” said Craig Rohden, CEO of Space City. “The new facility will allow for continued growth, enhance member value, and provide our employees with

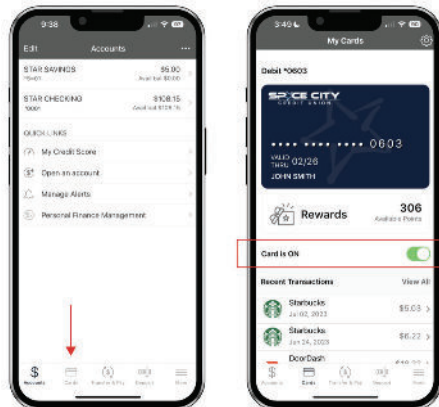

a great place to work.”

We are currently in the planning stages, and we expect construction to begin later this year. The building is scheduled to be completed in late 2024. We look forward to sharing more information about the project as it progresses.
